Holidays Highlights!

Schalk de Beer has recently been on holiday and is sharing his top highlights with us:

- The fantastic weather in South Africa.
- The availability of high-quality beef products at low prices due to the strength of the pound.
- The unique beauty of the African bush and its wild animals.

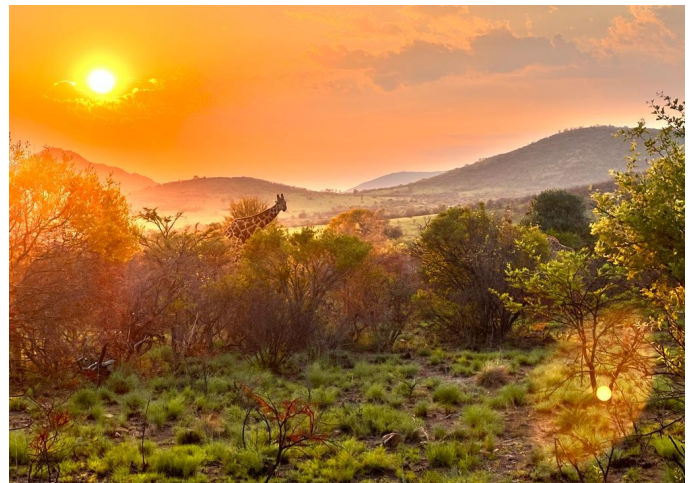

South Africa is a complex country with lots of problems but remains a wonderful destination for a holiday.

Always remember that it is important to consult with people with knowledge in terms of no-go areas, so that you can visit there safely.

Share your holiday experiences and top three highlights with your colleagues!

We'd love to hear about your adventures and tips for an unforgettable trip. Send us an email to...
